

Villa Maya Canggu

As its name suggests, Villa Maya Retreat is the perfect place to slow down and escape the frantic pace of everyday life. Resting on the banks of the Penet River, that flows through the pretty village of Cepaka in the heart of Bali's 'rice bowl', this six-bedroom villa has been designed to soothe your body, mind and soul.

With six stand-alone bedrooms (three with plunge pools), Villa Maya Retreat is perfect for families, friends or groups looking to share their holiday experience but who also desire privacy and room to breathe. Designed with space in mind there are plenty of places to take in the views and absorb the solitude; from the curtained relaxation balés to the secret garden alcoves to the sunset lounge at the river's edge.

The Villa is set in true rural Bali with everything you need at your fingertips. A full complement of staff, including an experienced chef, is on hand to prepare and serve delicious home-cooked Asian and Western meals. A car and driver is also on standby for those eager to explore the island or indulge in Seminyak's trendy restaurants, bars and shops (a 45 minute drive).
